■ The traditional DELUXE MENU COVER. Menus were always printed on oversized paper and folded to resemble a book. The folded menu can be fastened into the cover with a tassel or barbed end stretch cord through eyelets – or a stretch cord with tassel or ball end can be wrapped around the spine. All of these methods allow quick changeability of the printed menu. If you wish a menu cover of traditional styling but have single menu pages, clear vinyl holders can be sewn into the spine – the stitching will not show on the exterior of the menu. Thus the deluxe menu cover can hold 4 or 8 single pages allowing menu changes to be done a page at a time on your laser printer. Catalog pricing is with heavy board and square corners.

### ■ Captains Wine Book:

With hand made bookbinding and traditional concealed screw post construction, the captains wine book has a capacity of  $\frac{3}{16}$ " – this is 10 sheets of cover stock paper or 10 plastic protectors. The wine books are constructed so that your guest cannot see the screw posts when opening the book. Many fine restaurants will use this style as their complete menu cover because it could hold it all, from soup to nuts. Screw posts are packed separately with the covers for final assembly and hole drill placement is standard format, unless specified differently. For larger than  $\frac{3}{16}$ " capacity covers you want to contact the sales office. Catalog pricing is with heavy board and square corners.

# GENERAL INFORMATION

■ **Ordering:** Orders are accepted only by fax or mailed in. Always use a courier that requires a signature for receipt when sending artwork and orders. It is always a good idea to call the sales office before sending in your order to assure any unanswered questions.

■ **Repeat Orders:** Please help us by referring to our previous job number and your P.O. number when repeating an order. We will store your past orders and dies for 3 years. Any custom dies and artwork before that time (without a reorder) will be considered "new" and billed accordingly.

■ **Rush Orders:** Accepted subject to approval. Rush charges may apply. Many items are stocked on shelves and may be available to ship same or next day without an imprint. One week or less service may be available with an imprint. Always call to confirm in hand dates and availability.

■ **Prices:** Use most current price list and call to assure correct price breaks, including any option charges. Request a written quote for quantities beyond the end lot price, or if an item has custom options not in price list. It is always a good policy to call the sales office for correct pricing before sending in the order.

■ **Combined Pricing:** You may combine two or more different items together when ordering at the same time to get better pricing.

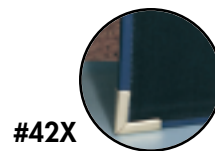

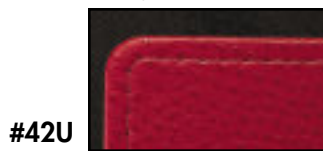

■ **Production:** 10 to 20 working days of received order. Orders accepted by fax or courier. In cases where a pre-production sample is required, production time begins when sample is approved. To help us, please be sure your artwork and approval of the production samples are sent in a timely fashion.

■ **Artwork:** With just a few exceptions, all items are priced with a one color one location foil stamp, all require camera ready art black on white. Separated art required for multiple colors. Price is based on imprint area. Typesetting and some art services are available and will be billed accordingly. Halftones, heavy coverage, and close registration may require additional charges. Dies for foil stamping are billed separately. Silk screening and four color process are also available on some items (see price list for details). Halftones in most cases will not work with foil stamping unless it is modified. Call sales office for advice.

■ **Order through Digital Format or Electronic Method:** We do accept art on a diskette or by E-mail. A small fee will be charged for retrieving art from a diskette or receiving it by E-Mail. Please call the office for our E-mail number.
